12th

PERCENTAGE: 57.85

New English School, Jamner

May 2014

10th

PERCENTAGE: 76.00

EXPERIENCE

Full Stack Developer Intern | Radiant IT Services Pvt Ltd

Aug 2023 - Aug 2024

- I created databases for specific sections of the applications according to the requirements using MongoDB
- I had to validate numerous forms and display error messages using React.js
- Used Axios to enable the client-side application to interact with the server-side application and database by consuming the APIs

Web Developer Intern | BRAINOVISION

Nov 2021 - Dec 2021

- Bring out possible automation ideas wherever applicable with supporting proof of concepts and worked as a team player.

PROJECTS

Automatic Depression Detection Through Visual Inputs

- This work will focus on feature developing for Depression Detection by investigating through the facial expression of a person.
- We build model which take a input as images and using CNN algorithm we classify input into emotions.

Quiz Website | BYTEBATTLE

- Build a quiz website. The website features a variety of quizzes on different topics, and users can track their progress overtime
- implemented user-friendly tutorials and quizzes in HTML5, CSS3, Bootstrap, Angular, and JavaScript
- Customizable quiz settings for language and number of questions and Designed an appealing sign-up page for enhanced user experience

E-commerce Website | DESI DEALS

- Designed and implemented a dynamic, responsive e-commerce website using React and React Router for seamless navigation.
- Utilized Redux for efficient state management, ensuring smooth data flow across components.
- Added shopping cart and checkout features, including support for online payment gateways (e.g., Stripe/PayPal).
- Implemented product catalog and search functionality with RESTful API integration for real-time data fetching.
